

We are pleased to announce our new Fellowship scheme, the UICC Trish Greene International Cancer Nursing Training Workshop.

This Fellowship is generously supported by an educational grant from the Oncology Nursing Society and the Oncology Nursing Society Foundation

Target candidates:	Registered nurses in resource-constrained countries
Duration:	3 – 5 days
Available:	5 - 15 per year
Average value:	US\$ 2,000/3,000 for each faculty member
Application closing date:	None, applications accepted at any time
Notification of result:	Generally within 60 days of registration

Objectives

- Facilitate a 3 to 5 day teaching and training workshop by an international faculty of up to 3 experts for groups of up to 30 appropriately qualified nurses
- Provide an opportunity for qualified nurses to augment their professional knowledge and to experience cancer nursing skills as practiced in the receiving host organisation

Profile of Host Coordinator

- Appropriately qualified head of department (or similar position) of the organisation applying for and hosting the training workshop

Profile of Visiting Faculty Co-ordinator

- Appropriately qualified and experienced cancer expert(s).

Workshop subjects

Subjects may include, but are not limited to:

- Cancer education programmes for prevention and early detection
- Patient counselling
- Safe drug handling
- Palliative care
- Pain assessment
- Quality of life issues

(Prevention-oriented workshops are especially encouraged.)

Selection

- Conducted by an international panel of nurse educators
Based on the
 - evaluation of the observership plan
 - experience and qualifications of the visiting faculty
 - suitability of the host centre
 - availability of appropriate facilities and resources to apply and disseminate the acquired skills.
